

MAINTENANCE TECHNICIAN – EL IDZ

Techniplas is a global supplier of sophisticated plastic components and design-focused, multifunctional surfaces that are primarily for the automotive sector, as well as the industrial, consumer goods, medical and other markets. The company's products follow industry trends like weight reduction and vehicle electrification, innovative operating concepts, high-quality surface finishes, and an increasing focus on convenience and safety. The Techniplas Group runs 30 sites worldwide with production, sales and / or technology hubs and employs just under 4,000 members of staff.

Our success is based on the highest quality standards and the tireless commitment of the Techniplas team. Our team members are our greatest asset. We strive to develop our employees and invest in deepening their skills.

*For our location in **IDZ East London, South Africa**, we have an immediate opening for a Maintenance Technician. Reporting directly to the **Manufacturing Manager**, you are an integral part of the related team, providing guidance in all local financial decisions. The successful candidate is a problem-solver who will work closely with the General Manager and local management team to further improve the business.*
